AlcAlert Breath Alcohol Detector

BT5500

Be Smart. Be Safe.

America's premier sensor technology company has developed a new way to measure Blood Alcohol Concentration. The AlcAlert measures the level of alcohol in a person's breath by utilizing advanced semi-conductor gas sensor technology. It clearly displays the Blood Alcohol Concetration in precise digital percentile increments, all this in about ten seconds. It's easy to use. Simply press the button, wait for the beep, blow into the unit, and within seconds the LCD displays a precise readout. The AlcAlert model BT5500 comes with 2 AAA batteries and a carrying pouch.

Advanced Semi-Conductor Gas Sensor Technology
Measures blood alcohol level via a breath sample

Simple And Easy To Use
Turn on unit, blow into mouth vent and read %BAC

Lightweight And Compact
3.5" x 1.25" x 0.5"; 1.6 oz.

Precise And Easy To Read
Displays percent blood alcohol concentration (%BAC) in increments of 0.01%, from 0.00 to 0.12

Audible Alerts
Beeps to indicate readiness
Beeps to indicate test completion

Quick Readings
Less than 10 seconds

Low Battery Alert
Graphic icon display

Long Battery Life
Operates on 2 AAA batteries (included) for over 300 uses

Carrying Pouch
To protect unit

Backlit Display
Convenient in low light situations

Developed by America's premier sensor technology company.
